TREAT A WIDE RANGE OF CONDITIONS

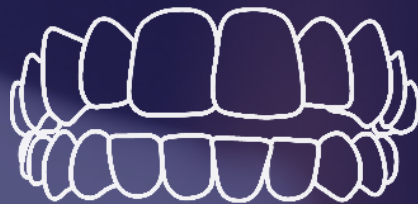

CROWDING

There are too many teeth to fit the space in the jaw causing misalignment

OPEN BITE

Your upper and lower teeth don't touch when your mouth is closed

CROSS BITE

When a tooth from the upper arch is positioned inside the lower arch

UNDER BITE

Lower Teeth protrude in front of the upper teeth

OVER BITE

Overlapping of the lower teeth by the upper teeth

GAPS / SPACES

When there is too much space or gaps between teeth

PROL:GNER

SuperClear FLX

Elastometric dual shell technology gives extra strength and flexibility

SuperClear PRO

PETG technology engineered for an ultra clear finish

Vari-Trim™ Protocol

varies the aligner trim line to apply extra force when it is needed

Laser Marking

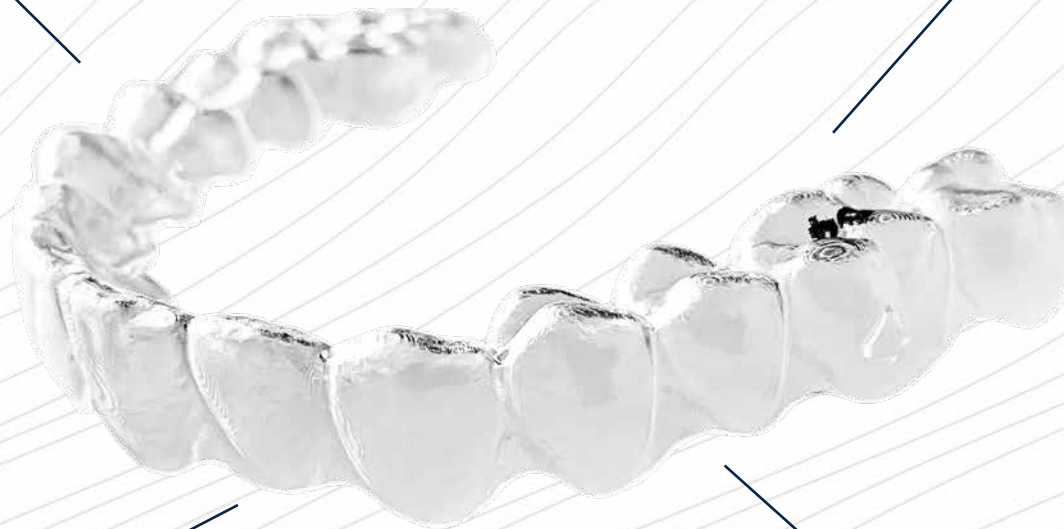

clearer tracking of aligners

Maximum Comfort

digitally scalloped trim lines as standard trimmed and polished for maximum comfort

Stain & Crack Resistant

aligners stay clearer and last longer

Premium Quality, Service & Technology

Cost-Effective Plans, Flexible Pricing

Our treatment plans only include active aligners as standard so you don't pay for passive aligners. For short cases choose CUSTOM or for longer unpredictable plans choose UNLIMITED

Orthodontists Plan Cases

All cases submitted to PROLIGNER whether small or large are planned by one of our experienced Orthodontists. Rest assured your plans are of the highest standard.

Bespoke Aligners

Customise your aligners to suit your patient. Choose your trim line, aligner thickness, and include or exclude passive aligners. You are in control of the design and how many aligners you order.

Technologically Advanced

Use SuperClear FLX or PRO provide superior strength, clarity, premium comfort as well as crack resistance.

Swift Turnaround Times

Submission to a plan in 3 days, then delivery in as little as 7 days. Turnaround times are key to an efficiently run practice.

Warm Responsive Service

We're your partner in providing an effective, timely treatment. Our support specialists can help with all your treatment needs end-to-end, from system training, case submission, tracking, refinements, reorders and more.

Premium Packaging

Premium packaging makes your patient feel valued, giving them a five star experience.

Manufacturing Without Compromise

Our treatment plans are created by Orthodontists, and our aligners are CE marked, TGA and FDA approved, and manufacturing complies with ISO 13485:2016. We also abide by the highest COVID-19 compliance.

UPLOAD IMPRESSIONS

Upload your STL files online or post your impressions to the Scan Lab

APPROVAL / MODIFY

Review, modify or approve for manufacture.

DISINFECT & PACK

COVID-19 safe - aligners are disinfected and sealed in pouches

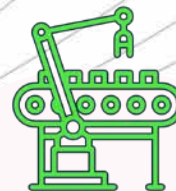

1 Day

TREATMENT PLANNING

Our planning team creates your plan within 1-2 days

1-2 Days

MANUFACTURE

3D printed with digital trim lines for accurate fit on soft tissue

1-2 Days

DELIVERED TO YOU

Express couriered to ensure timely delivery

4-7 Days

2-3 days

7-10 days

Technologically Advanced

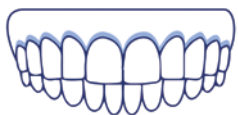

We accept STL, PLY or OBJ files from any of the major branded dental scanners. We also accept PVS impressions.

Trim line can affect the force applied on the teeth. Select your desired trim line to achieve the desired outcome.

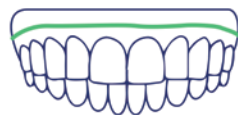

**SCALLOPED TRIM LINE
(STANDARD)**

**FLAT TRIM LINE AT
GINGIVAL ZENITH**

**FLAT TRIM LINE 1MM
ABOVE GINGIVAL
ZENITH**

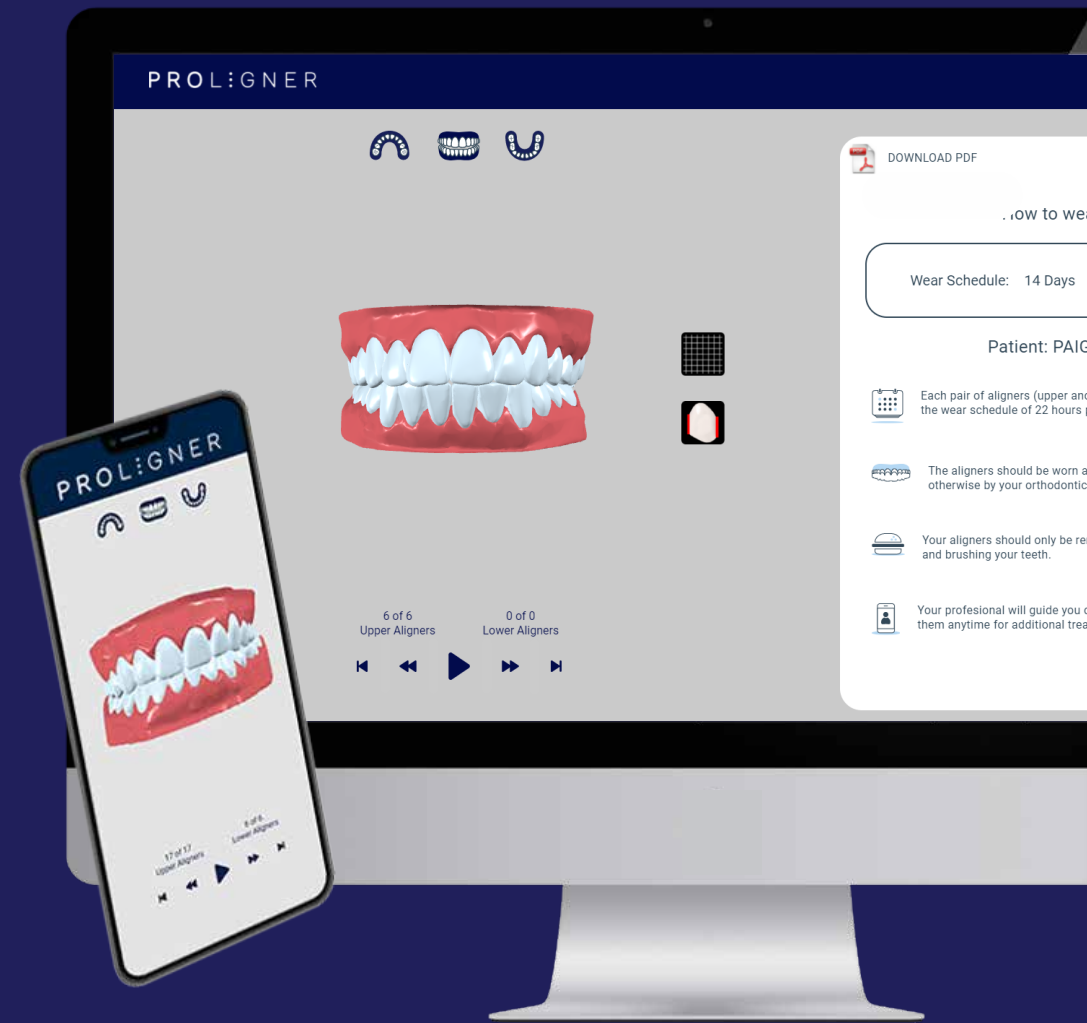

Digital 3D Setup PC & Mobile Friendly

Manage patients cases through the online portal with our intuitive online case management software. Receive a 3D treatment plan preview. The plan includes IPR, attachments and step by step information.

Share the plan with your patients. It is free and there is no software downloads required.

Nothing to pay until you are happy with the plan

Cost-Effective, Flexible Pricing

CUSTOM

**Treatment
Plan**

plus

**Aligners &
Retainers**

Per Approved Setup

Per Aligner

Only pay for what your patient requires. Custom Plans allow you to provide just the right amount of aligners. Single arch or dual, a few or many, only pay for what is required.

Provider Rewards

Loyalty is important to us. Become a Platinum, Gold or Silver Provider to get even better pricing.

EXTENDED

**Fixed price per
treatment**

Includes unlimited aligners

A single price covers all the aligners your patient could need for a treatment period of up to 3 years: Receive unlimited aligners, 2 mid-course corrections, 1 set of retainers, shipping, it's all included!

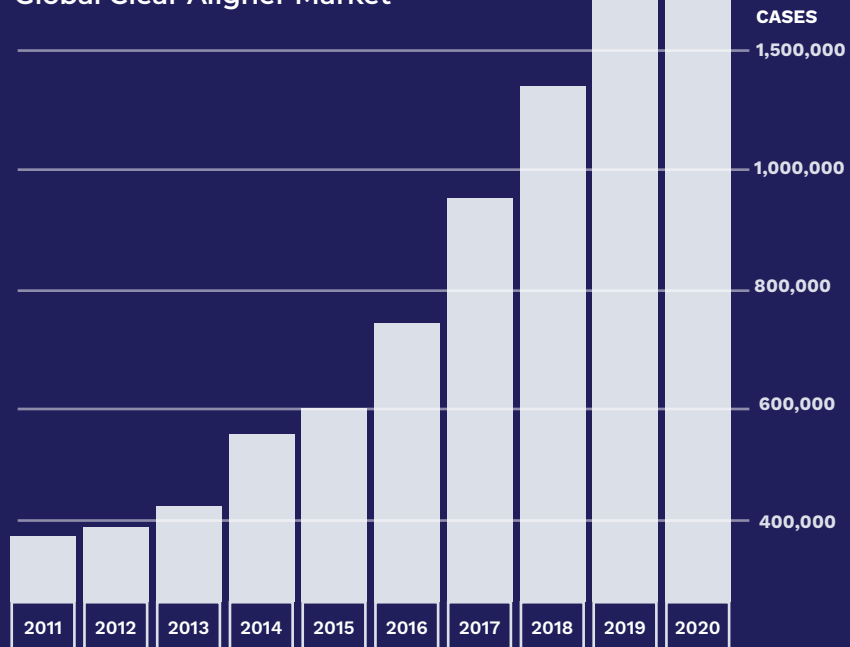

Some restrictions may apply. See terms and conditions for details.

Patients Are Simply Moving

Clear aligners are the fastest growing treatment in the orthodontic industry as patients become more aware of their options.

Since 2008, the clear aligner market has risen by over 400% and this growth is accelerating

Global Clear Aligner Market

The market is evolving with breakthrough technology now empowering dental professionals to provide clear aligner treatment, in a more efficient and cost-effective way, without compromising quality.
